

## RBB Bancorp Reports Second Quarter 2023 Earnings

July 24, 2023

LOS ANGELES--(BUSINESS WIRE)--Jul. 24, 2023-- RBB Bancorp (NASDAQ:RBB) and its subsidiaries, Royal Business Bank (“the Bank”) and RBB Asset Management Company (“RAM”), collectively referred to herein as “the Company,” announced financial results for the quarter ended June 30, 2023.

The Company reported net income of \$10.9 million, or \$0.58 diluted earnings per share, for the quarter ended June 30, 2023, compared to net income of \$11.0 million, or \$0.58 diluted earnings per share, and \$15.5 million, or \$0.80 diluted earnings per share, for the quarter ended March 31, 2023 and June 30, 2022, respectively.

“I’d like to welcome Johnny Lee to the Royal Business Bank team as President and Chief Banking Officer,” said David Morris, CEO of RBB Bancorp. “His hiring is one of the more visible steps we have taken over the past 15 months to strengthen our management team.”

Mr. Morris continued, “We continued to reduce our loan to deposit ratio in the second quarter by increasing deposit balances and allowing out-of-market loans to run off. We are proactively managing our loan portfolio and are confident that our underwriting standards will limit ultimate losses.”

“Over the past several months, the Board has taken important steps to enhance corporate governance and strengthen our Board and, as David noted, our management team,” said Dr. James Kao, Chairman of the Company. “In addition to the two independent directors we added in April, two independent directors were elected to the Board at our annual shareholder meeting in June, bringing the total number of independent directors to nine. We believe our governance and management enhancements, combined with our prudent approach to underwriting, credit risk management, and capital management, position us to continue to navigate the institution through this challenged operating environment.”

### Second Quarter 2023 Highlights Compared to First Quarter 2023

- Net income decreased to \$10.9 million, or \$0.58 diluted earnings per share.
- Net interest income decreased to \$31.9 million.
- Noninterest income increased to \$2.5 million and noninterest expense decreased to \$18.5 million.
- Total loans held for investment decreased by \$146.4 million and total deposits increased by \$24.4 million, resulting in a decrease in the net loan to deposit ratio to 99.3% from 104.7% at the end of the prior quarter.
- Return on average assets decreased to 1.08%.
- Return on average tangible common equity decreased to 10.33%. (1)
- Net interest margin decreased to 3.37%.
- The ratio of allowance for credit losses to total loans increased to 1.35% from 1.29% at the end of prior quarter.
- The Company’s capital position remained strong with a ratio of 16.9% tier 1 common equity to risk-weighted assets.

(1) Reconciliations of the non-U.S. generally accepted accounting principles (“GAAP”) measures are set forth at the end of this press release.

### Net Interest Income and Net Interest Margin

Net interest income before provision for credit losses was \$31.9 million for the second quarter of 2023, compared to \$34.1 million for the first quarter of 2023. The \$2.2 million decrease was primarily attributable to an increase in interest expense on time deposits, partially offset by increases in yield in loans held for investment and available-for-sale securities. For the second quarter of 2023, average time deposits increased \$256.1 million and the interest rate paid on time deposits increased 74 basis points to 3.98%, from 3.24% in the first quarter of 2023.

Compared to the second quarter of 2022, net interest income before provision for credit losses decreased \$5.2 million from \$37.1 million. The decrease was primarily attributable to an increase in average interest-bearing deposits of \$599.7 million and a 298 basis points increase in the interest rate paid on interest-bearing deposits, partially offset by an increase in average loans of \$282.5 million and an 84 basis points increase from 5.39% in the second quarter of 2022 to 6.23% in the yield earned on loans.

Net interest margin was 3.37% for the second quarter of 2023, a decrease of 33 basis points from 3.70% in the first quarter of 2023 due primarily to a 72 basis point increase in the average cost on interest-bearing deposits from 2.75% in the first quarter of 2023 to 3.47% in the second quarter of 2023. Cost of interest-bearing deposits increased due to increasing market rates and peer bank deposit competition.

### Noninterest Income

Noninterest income was \$2.5 million for the second quarter of 2023, an increase of \$131,000 from \$2.4 million in the first quarter of 2023. The increase was primarily driven by a \$128,000 increase in wealth management commissions and an \$89,000 increase in fees on deposit accounts, partially offset by a \$125,000 decrease in loan servicing fees due to loan prepayments during the quarter.

Noninterest income decreased by \$929,000 from \$3.4 million in the second quarter of 2022. The decrease was primarily attributable to a \$757,000 decrease in gain on sale of corporate real estate and a \$326,000 decrease in gain on sale of loans due to interest rate hikes that caused decreases in both loans held for sale and gains on loans sold.

## Noninterest Expense

Noninterest expense for the second quarter of 2023 was \$18.5 million, compared to \$18.9 million for the first quarter of 2023. The \$394,000 decrease was primarily attributable to a \$537,000 decrease in salaries and employee benefits expenses and a \$141,000 decrease in legal and other professional fees, partially offset by a \$305,000 increase in insurance and regulatory assessments. The decrease in salaries and employee benefits expenses was due to the decreases in payroll tax and 401K contribution related to employees' bonus distribution in the first quarter of 2023.

Noninterest expense for the three and six months ended June 30, 2023, includes legal expenses related to the Company's voluntary cooperation with the Securities and Exchange Commission's ("SEC") requests for information as disclosed in the Company's Current Report on Form 8-K filed with the SEC on July 24, 2023.

## Income Taxes

The effective tax rate was 29.5% for the second quarter of 2023, 29.4% for the first quarter of 2023, and 29.6% for the second quarter of 2022.

## Loan and Securities Portfolio

Loans held for investment, net of deferred fees and discounts, totaled \$3.2 billion as of June 30, 2023, a decrease of \$146.4 million from March 31, 2023, and an increase of \$150.0 million from June 30, 2022. The decrease from March 31, 2023 was primarily due to a \$104.8 million decrease in commercial real estate loans, a \$24.6 million decrease in commercial and industrial loans, and a \$24.3 million decrease in construction and land development loans. The increase from June 30, 2022 was primarily due to a \$349.0 million increase in single-family residential mortgages, offset by a \$106.6 million decrease in commercial and industrial loans and a \$99.9 million decrease in construction and land development loans.

As of June 30, 2023, the Bank's total available-for-sale securities amounted to \$391.1 million, including available-for-sale securities maturing in over 12 months of \$242.6 million. As of June 30, 2023, the Bank recorded gross unrealized losses of \$32.3 million on its available-for-sale securities compared to gross unrealized losses of \$28.7 million as of March 31, 2023 with respect to its available-for-sale securities.

## Liquidity and Deposits

Total deposits were \$3.2 billion as of June 30, 2023, which reflected an increase of \$24.4 million or 0.8% compared to March 31, 2023. As of June 30, 2023, the Company had \$246.3 million in cash on the balance sheet, which is an increase of \$15.6 million or 6.8% from March 31, 2023. In addition, the Company had \$893.1 million in Federal Home Loan Bank borrowing availability, Fed fund lines of \$92.0 million, \$40.8 million in available funds from the FRB Discount window and \$391.0 million in available-for-sale securities that were unpledged. The Company has \$95.0 million of loans qualified to be pledged to the FRB. The total of these available sources represents \$1.8 billion or 183% of total uninsured deposits or 243% of adjusted uninsured deposits, which excludes ICS and CDARS program deposits and uninsured deposits affiliated with directors and officers of the Company.

Total adjusted uninsured deposits of \$724.3 million represented approximately 23% of total deposits as of June 30, 2023. Since mid-March, we have been diligently working with our larger deposit clients to enroll them in the ICS and CDARS program to ensure that all of their deposits are FDIC insured. ICS and CDARS program deposits increased to \$217.5 million at June 30, 2023 from \$116.2 million at March 31, 2023.

## Credit Quality

Nonperforming assets totaled \$42.4 million, or 1.04% of total assets at June 30, 2023, compared to \$27.0 million, or 0.66% of total assets at March 31, 2023. The \$15.4 million increase in nonperforming assets was due to the increase in nonperforming commercial real estate loans of \$10.4 million and nonperforming single-family residential loans of \$10.1 million, partially offset by commercial real estate loan payoffs or paydowns of \$2.0 million and single-family residential loan payoffs or paydowns of \$1.9 million.

Special mention loans totaled \$24.2 million or 0.76% of total loans at June 30, 2023, compared to \$89.0 million, or 2.66% of total loans at March 31, 2023. The decrease is mainly due to upgrade of a large construction loan.

Substandard loans totaled \$74.1 million or 2.32% of total loans at June 30, 2023, compared to \$77.7 million, or 2.32% of total loans at March 31, 2023. The slight decrease is mainly due to loans paid off.

30-89 day delinquent loans, excluding non-accrual loans, decreased \$7.0 million to \$7.2 million as of June 30, 2023 compared to \$14.3 million as of March 31, 2023. The \$7.0 million decrease in past due loans was due to loans that converted to non-accrual status in the aggregate amount of \$11.1 million, loans that migrated back to past due for less than 30 days in the amount of \$618,000, loan payoffs or paydowns of \$595,000, partially offset by new delinquent loans in the aggregate amount of \$5.3 million.

Total net charge-offs were \$580,000 for the second quarter of 2023, as compared to net charge-offs of \$157,000 in the prior quarter and net charge-offs of \$53,000 in the same quarter last year.

The allowance for credit losses totaled \$43.1 million, or 1.35% of loans held for investment at June 30, 2023, compared with \$43.1 million, or 1.29%, of loans held for investment at March 31, 2023.

## Dividend Payout and Stock Repurchase

For the second quarter of 2023, the Board of Directors declared a common stock cash dividend of \$0.16 per share, payable on August 11, 2023 to stockholders of record on July 31, 2023.

On June 14, 2022, the Board of Directors authorized the repurchase of up to 500,000 shares of common stock, of which 433,124 shares remain available. The repurchase program permits shares to be repurchased in open market or private transactions, through block trades, and pursuant to any trading plan that may be adopted in accordance with Rules 10b5-1 and 10b-8 of the SEC. The Company did not repurchase any shares during the second quarter of 2023, and has not repurchased any shares since October 24, 2022 pursuant to this authorization.

**Non-GAAP Financial Measures**

**Tangible Book Value Reconciliations**

The tangible book value per share is a non-GAAP disclosure. Management measures the tangible book value per share to assess the Company's capital strength and business performance and believes these are helpful to investors as additional tool for further understanding our performance. The following is a reconciliation of tangible book value to the Company shareholders' equity computed in accordance with GAAP, as well as a calculation of tangible book value per share as of June 30, 2023, March 31, 2023, and June 30, 2022.

#### Return on Average Tangible Common Equity

Management measures return on average tangible common equity ("ROATCE") to assess the Company's capital strength and business performance and believes these are helpful to investors as an additional tool for further understanding our performance. Tangible equity excludes goodwill and other intangible assets (excluding mortgage servicing rights), and is reviewed by banking and financial institution regulators when assessing a financial institution's capital adequacy. This non-GAAP financial measure should not be considered a substitute for operating results determined in accordance with GAAP and may not be comparable to other similarly titled measures used by other companies. The following table reconciles ROTCE to its most comparable GAAP measure:
